MAKERS
A Keller Company

11th July 2007

To Whom It May Concern

I write to confirm that we have worked with John Arundell at JA Recruitment over the past 4 years.

We are a £55 million turnover, contracting group working nationally in various sectors of the refurbishment market within the construction industry. We employ some 265 people across the UK as well as utilising the services of large numbers of sub-contract labour.

In the course of any one year, we averagely recruit between 30 people across the businesses and over the past 4 years John has proven to be a very good supplier of recruitment services to Makers.

His whole approach to providing candidates for our consideration is always highly professional, he takes account of the briefing we provide, matches and marries that information to the candidates that he is working with, and only when he is confident that he has a relevant introduction to make, does he submit the details to us.

This assiduous approach is much appreciated by us and will ensure that John remains a supplier to us for the foreseeable future.

In all our dealings to date we have been thoroughly satisfied by the standards of service he and his organisation provide, and we would have absolutely no hesitation in recommending him for REC membership.
